Leah Farrell
Director

Home Therapy NL Services

At Home Therapy NL, we understand that the process of selecting the Home Therapist that is right for your family can be a daunting experience. We are here to help parents find and keep qualified individuals who will have the best interest of their child in mind.

After careful conversation with the community, we have created a number of different service packages based on the varying needs of individual families.

Whether you want us to take the role of employer off of your shoulders with continued support after placement or you just require the placement of a qualified individual, we are here to help.

Blue - Recruitment - We support you in finding a qualified individual

- We interview parent to assess needs of family
- Place advertisement for Home Therapist (Kijiji, Social Media, Contacts)
- Vet resumes to ensure qualifications met (two years post secondary), ensure Vulnerable Sector and Certificate of Conduct Checks are complete, contact references
- Choose 5 resumes that meet family criteria
- Group interview with candidates where parents can be involved if they choose. We will lead these interviews and welcome parent input

Pink - Recruitment and Continued Support - We take the role of employer off your shoulders completely so that you can focus on being a supportive parent. We recruit, hire and provide continued support to ensure accountability to quality therapy.

- Recruitment/Hiring process in Package A
- Weekly schedule
- Replacement during vacation and/or sickness if wanted
- \$2/hour top up for our Home Therapists
- Participation of Home Therapist in available workshops
- Management of Human Resources related conversations
- Bookkeeping

Green - Personalized Services - Has your child aged out of the system in place and you want to continue to receive quality care? Are you interested in finding a therapist outside of ABA Therapy? Does your child have a diagnosis other than Autism and you want to provide the best therapy program possible? We can help you create a personalized therapy program that is tailored to your family's needs.
